

All Saints
Catholic High School

PROSPECTUS

The All Saints School community is founded on relationships, respect and an ambition for excellence. Our values underpin everything that we do within the school. They bind us together as a Christian community. We view each person as special and unique and we recognise and respond to their gifts, their needs and their aspirations. We care for all individuals by celebrating achievement and providing support.

All Saints has an outstanding reputation for academic achievement based on a consistent record of excellent examination results that continually improve year on year. We nurture individual students and encourage and assist each one to reach their full potential.

Our personalised curriculum offers a vast range of learning opportunities. Students can take examination courses over one, two or three years as appropriate to the nature and demands of each course. Extracurricular and enrichment programmes are extensive. These complement and extend the academic curriculum and include programmes such as the Duke of Edinburgh award, local and international projects, charity work and a wide range of sporting activities.

Our thriving Sixth Form greatly enhances the character of the school. The high staying-on rate from Year 11 to Year 12 is a testament to the very positive

relationships which are established at All Saints. Our Sixth Form students enjoy a challenging and enriching curriculum which enables the great majority to go on to further study, including Oxford and Cambridge.

In March 2011 Ofsted confirmed that All Saints is a very special place and judged both the school and the sixth form to be outstanding. Shortly after this the Section 48 inspection graded the religious character and the teaching of Religious Education as outstanding too.

Our ambition for excellence will further be realised with the opening of the new school campus in September 2011. Through Building Schools for the Future the whole school has been redeveloped and refurbished. The students at All Saints now have access to state of the art facilities in science, dance and drama, music and design and technology.

Above is just a glimpse in to the best kept secret in Sheffield. If you would like to know more about what we have to offer, I would very much welcome you to our open morning on Saturday 24th September where I look forward to meeting you personally and to answering any particular questions you may have about All Saints School.

Bob Sawyer, Headmaster

Celebrating Achievement

The fulfillment of God-given potential is central to our vision for All Saints School.

We have high expectations of our students in all aspects of their school life including work, behaviour and appearance. Our examination results have risen continually over the last five years to the point where the performance of our students is now in the top 25% of students nationally.

At All Saints, we are proud of all our students' achievements from excellent academic performance in the classroom, to exceptional success at sport, drama and dance, and outstanding effort and endeavour on behalf of others through our charitable fund raising.

We encourage our students to learn together, support each other and develop their own individual strengths.

We believe that it is our responsibility to help the young people of today to realise their dreams, fulfill their potential and go on to succeed in the workplace and the wider world.

We believe that our all round and unique educational environment at All Saints equips our students for life and its many challenges and opportunities.

A Learning Environment

Our new school has been redesigned to offer students a range of unique and exciting learning opportunities. The innovative and spacious buildings and grounds provide all students with a range of individual and classroom learning experiences. All Saints is committed to the use of technology to support learning. There are several open learning areas and breakout spaces that offer access to ICT for every student in the school.

We are totally committed to our students throughout their school journey and beyond and therefore we will continue to invest in the learning environment to support them into higher education and the world of work and life. In short, we offer an aspirational and inspirational school environment.

Broad horizons

Every child flourishes in different ways. One of our central aims is to ensure that each student experiences the widest possible range of opportunities. This is achieved through an exciting and flexible curriculum, a superb choice of activities and out of school trips and unparalleled access to city, national and international programmes. Students are encouraged to explore as many subjects and interests as possible and are given support, expert tuition and access to state of the art facilities.

At All Saints we have a passion for learning and welcome the opportunity to encourage and develop each student's unique talents and ambitions.

A student's education at All Saints is enriched by a wide range of activities occurring both after school and during lunchtime. These change with the time of year and the particular interests of staff and students. Field trips, visits abroad, visits to the theatre and museums, and retreats are established parts of the extra-curricular life of the school.

There are no limits to your child's horizons at All Saints.
